Nedj Belloum

Systems and Network Administrator

Nice, France • +33 6 51 48 50 28 • nedjpro06@gmail.com • nedjb.fr • LinkedIn • GitHub

PROFILE

Systems and network administrator specialized in Microsoft environments (Windows Server, Active Directory, Microsoft 365). Every day, I manage the infrastructure and support the users of a group with several companies. I like to automate repetitive tasks, secure access and build tools that help teams.
I also build web applications, so I can connect infrastructure, business needs and development.
Open to opportunities: freelance work, fixed-term or permanent contracts.

TECHNICAL SKILLS

- **Systems and servers:** Windows Server 2016 to 2022, Active Directory, Group Policy (GPO), DNS / DHCP, IIS, scheduled tasks, VMware, VirtualBox, Linux (Debian, Ubuntu)
- **Microsoft 365 and cloud:** Entra ID (certificate authentication), Exchange Online, SharePoint (permissions), OneDrive, Azure
- **Automation:** PowerShell, Power Automate, REST APIs (SharePoint, Microsoft Graph), Python, SQL, Ansible
- **Networks and security:** TCP/IP, VLAN, Wi-Fi, Cisco, Fortinet, RADIUS / 802.1X (NPS), WireGuard VPN, Wireshark, least privilege, service accounts
- **Development:** HTML / CSS / JavaScript, TypeScript, React, FastAPI, Next.js, PostgreSQL, Docker, Git, GitHub Actions (CI/CD)
- **Support and project management:** level 1 and 2 support, IT asset management, ITSM (Cockpit, GLPI), Jira, gathering needs, documentation

WORK EXPERIENCE

IT Support Technician

Groupe Ragni · La Gaude, France | 09/2025 – Present

- Manage Windows Server, Active Directory, Entra ID and Microsoft 365 (accounts, access rights, GPO).
- Automate business processes with Power Automate and PowerShell.
- Set up and deploy internal tools (IIS, scheduled tasks, GPO).
- Manage permissions and secure SharePoint sites.
- Upgraded the company computers to Windows 11.
- Manage the network, Wi-Fi, backups and virtualization.
- Level 1 and 2 user support, IT asset management and IT budget preparation.
- Track projects in Jira and write technical documentation.

Assistant Systems and Network Administrator

Resistex · Saint-André-de-la-Roche, France | 07/2025 – 08/2025

- Installed a new physical server and moved all data from the old environment.
- Diagnosed and fixed network and user incidents to keep services running.
- Replaced and configured Wi-Fi access points to improve coverage and stability.

Support Agent and Dispatcher

Pickup Logistics · Saint-Ouen-sur-Seine, France | 11/2021 – 10/2024

- Wrote daily reports and tracked key indicators (KPIs) to improve service quality.
- Customer support: handled incoming and outgoing calls and solved incidents.
- Organized and improved schedules with care and clear priorities.
